Notes for Suggested Load Order

Table Types: A=Admin; D=Data; L=Look-up; X=Cross-walk

OCCODES is normally loaded by triggers. If triggers are not used, content for this table should be appended from the related lookup tables: CEN2000, CENSCODE, CIDSCODE, CIP2000, CIPCODE, CLUSCODE, DOTCODE, OCCDIR, OESCODE, ONETCODE, SOC2000, SOCCODE and STPROGCD.

INDCODES is normally loaded by triggers. If triggers are not used, content for this table should be appended from the related lookup tables: CENIND, CENIND2000, SICCODE and NAICCODE.
